Weekly Construction Update from Superintendent Gary Francisco
Progress report #3, 7/2/2020

Happy Thursday everyone! Due to the Holiday we will not be working this Friday. We finished our soil corrections under the building foot print on Wednesday this week. And again, no surprises. Testing and observation continues and have passed with flying colors! Kids have gotten into the site through the creek area, so I have ordered enough fence to secure the whole site. We will be starting Geo Piers and site utilities next week! Have a great 4th!
