Weekly Construction Update from Superintendent Gary Francisco
Progress report #2, 6/19/2020

Happy Friday everyone! We have made progress with our soil corrections. I estimate about 55% complete. And again, no surprises. Testing and observation continues and have passed with flying colors! The weather this week has been a bit warm but everyone is working through it. Site signage has been installed on the fence. I will not be sending an update next week. I will resume the updates July 3rd. Have a great weekend!
